**General Order Comments:**

- TT/Classic telescope includes (but is not limited to) the following standard components:
  - “Truss Ring” to allow quick assembly and disassembly in the field;
  - 18-point Flotation Mirror Cell, PLOP-optimized for this specific primary mirror, utilizing the Howie Glatter Cable Sling lower edge support system;
  - Primary Mirror Center-Spotting Service utilizing the CatsEye “HotSpot”;
  - Astrosystems 4-Vane HD Spider with tool-less collimation secondary holder;
  - Choice of Rigel QuickFinder or Telrad Reflex Finders;
  - Choice of Wood Stain Color (Cherry, Maple, Natural, Amber or Other);
  - Internal Mirrorbox Baffle with Black Velvet to enhance contrast and reduce extraneous light;
  - Black Velvet Light-trip Across from Focuser inside of Upper Tube Assembly to enhance contrast;
  - Dual Boundary Layer Cooling Fans, with **\*\*NEW\*\*** variable speed controller dial, to scrub the “boundary layer” of turbulent air on top of the primary mirror, yielding sharper images at the eyepiece;
  - DewBuster 12-volt Controller/Splitter Box, integrated with wiring of scope;
  - Custom-fitted Nylon/Lycra Light Shroud;
  - Custom Truss Pole Carry Case with Shoulder Strap;
  - Engraved Brass Name Plate and choice of Brass, Black or Nickel/Chrome Hardware packages;
  - Moonlite Ball and Socket Truss Connectors for Lower Truss Connection;
  - Aurora Precision Truss Connectors for Upper Truss Connection;
  - Moonlite Black Anodized Aluminum 1.250” OD Truss Poles;
  - Virgin Teflon and Black FRP (Fiberglass Reinforced Panel, or “Glassboard”) Azimuth and Altitude Bearing Surfaces.

**Specific Order Comments:**

- Cherry Wood Stain, Bright Brass Hardware Package;
- Focuser to be mounted on LEFT-hand side of scope (standing at rear and looking skyward);
- Light Shroud Color: Black
